

## DYNAMIC ABUTMENT SOLUTIONS

### DYNAMIC SCREW TRANSFER

Introducing a new tool: Dynamic Screw Transfer. A new product that allows to fasten the screw by friction because of its design. In this way the screw can be extracted from the patient's mouth without the risk of falling.

### DENTAL COLLOQUIUM ITALY

From September 22nd to 24th we were at Dental Colloquium Italia, in Montichiari, one of the most important trade fairs in Italy.

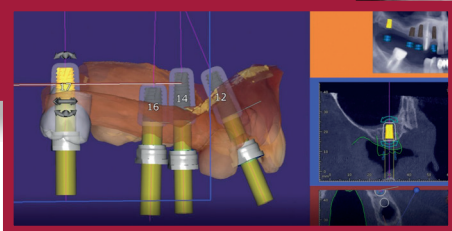

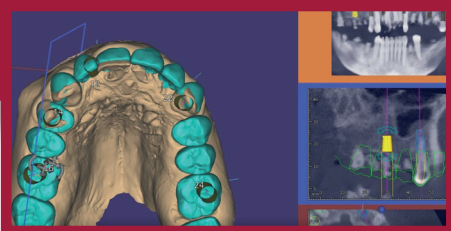

### TECHNOLOGICAL CLUB MANRESA

On September 9 and 10 we were in Manresa, at the XXI Scientific Technical Conference organized by the Dental Technological Club, where the latest novelties of our products were presented.

### DYNAMIC WEEKEND IN POLAND

On September 9 and 10, we shared a conference with our Polish distributor, KTI. There we showed our products and services, as well as some real cases of Dr. Pastor's solved with DAS systems.

### UPCOMING EVENTS

From October 7 to 9 we will be presenting our products at IDEM, in Singapore. And on October 7 and 8 we will be in Ibiza, at the International Congress on Dental Prosthetics.
